

Magnetic Filter Bars

- Powerfully extract fine ferrous contamination from free flowing products such as sugar, grain, tea and liquids;
- Typically with NdFeB magnets, could give peak surface Gauss value of 9'000Gs, and the Max. value we could achieve is 12'000Gs;
- Fully seal welded, waterproof and well polished;
- Food grade could be provided on request;
- For all the dimensions, the threaded hole(s)(M6, M8, M12) could be supplied on one end/on both ends.

Magnetic Filter Bars				
ITEM No. (Ferrite series)	ITEM No. (NdFeB series)	A (mm)	B (mm)	No. of holes
